

The Vulpirans Honor (The Soul-Linked Saga Book 6)

The Vulpiran brothers, three breathtakingly sexy near identical triplets who shape-shift into creatures much like giant foxes, have been waiting century after century for their Arima, their destined soul mate who will unite their divided souls, tremendously enhance their magic, give them children, and whom they will love and cherish for eternity. And, finally, they have found her, in the person of Honor, known as Honey, Davis, a beautiful human obstetrician with a psychic gift for communicating with and healing the unborn. There's just one teensy little problem Honey is married to the brilliant Terien scientist, Michael Davis, invited by the Vulpirans to their world to help unravel the mysteries of the enigmatic Xanti, evil spider-like beings from a nearby galaxy bent on the conquest and enslavement of every race in our own. And, Michael and Honey have a five year old child, the adorable and precocious Nica, who wins everyone's hearts and who has psychic gifts of her own. While Michael races to unlock the puzzle of the Xanti, on which the fate of our own galaxy hinges, Honey and the Vulpirans struggle with the intractable situation in which they find themselves, all the while fighting the powerful emotional connection, not to mention the irresistible sexual magnetism, drawing them together. Their dilemma sends all four on a perilous emotional odyssey, through dangers of the heart and soul as well as dangers posed by Xanti machinations and sabotage and a deadly threat that rises from the ashes of Michael's secret past to threaten their future together and the innocent life of little Nica. These destined lovers will use all of their magical and psychic gifts, all their wits, all their resolve, and all their courage as they struggle to overcome these challenges, but will they be enough? Will Honor become the Vulpirans Honor? The Vulpirans Honor is the sixth full length (107,000+ words) novel in the Soul Linked Saga an epic
