Abandoned! Deserted on the Island of Dr. Melville by a billionaire's son, sheltered Midwestern librarian Eve escapes the paws, claws, and talons of a menagerie of hybrid animal-men with the help of a few kinder souls. But disaster strikes when she becomes separated from her would-be protectors. Impregnated, injured, scared, and alone, Eve finds herself at the mercy of a pack of savage beasts in unfamiliar wilds. A brutal world where even the mad doctor himself fears to go, and the man-wolves rule by fang and fury! The long-awaited sequel! Paranormal pulp at its finest!
