

Drenched

Vanessa is an explorer of all things under the sheets, but when she meets Doc she discovers an untouched part of herself that both excites and scares her. He has strange asks and even stranger desires that she isn't sure she will be able to uphold. Dropping to all fours tethered around his wrist, Doc leads her outside to relieve his desperation in the backyard. Will this new thrill grow on her or will she end up being another disappointment to this secret wealthy admirer?
