

Students Guide to Information Technology is more than just a guide - it is a student-centred text which aims to develop knowledge and understanding in a dynamic way, introducing theoretical aspects through familiar context, and encouraging an active learning process with objectives and numerous in-text questions. This book is a well-established and popular text for a wide range of courses - Advanced GNVQ, BTEC National, City & Guilds 7261, A-Level IT, and post-basic introductory courses run by colleges and businesses. The new edition is based on the latest technology and software applications, with new material on developments such as e-mail and the Internet. It is also presented in a new student-friendly format with a larger paper size and a more spacious layout. To complement this, the style of the text and activities has been made more accessible to facilitate independent study.

CFO Fundamentals: Your Quick Guide to Internal Controls, Financial Reporting, IFRS, Web 2.0, Cloud Computing, and More, Hans Ulrich Obrist & Dan Graham: Conversation Series: Volume 25 (Conversation (Verlag Der Buchhandlung)), The Rights of People with Mental Disabilities: The Authoritative Guide to the Rights of People with Mental Illness and Mental Retardation (ACLU Handbook), Fifty Shades of Alice at the Hellfire Club (The Fifty Shades Of Alice Trilogy Book 3), 2014 Horses Magnet Calendar, Mark Morris: Musician - Choreographer, Customary Law,
