

# BusinessObjects Enterprise Administrators Guide (Business Objects Press)

Business Objects is the leader in the business intelligence software market, providing reporting and analysis tools (like Crystal Reports) to millions of customers world wide. The Business Objects Enterprise Administrators Guide covers the companys core software platform and is the essential reference for administrators, report developers and users. Whether companies have been using Business Objects for years or just getting started, the BusinessObjects Administrators Guide provides the detailed information they will need to install, implement and maintain the Business Objects platform. Drawn from over a decade of real-world experience implementing, developing for and maintaining the platform, the Administrators Guide provides guidance and best practices gleaned from some of the largest Business Objects customers and installations, world wide. This is the second book from the official Business Objects Press, and will be launched at their biggest conference of the year.
